Famed for the manufacture of the iconic red telephone boxes and pillar boxes still in use throughout the UK today, the Carron Iron Company was considered to be the centre of the industrial revolution in Scotland and quickly became the largest iron works in Europe.

Moving forward more than 250 years Carron Phoenix is now one of the leading manufacturers of kitchen sinks in the UK. Our sink design philosophy means that we do not compromise between stylish good looks and practicality. Whether Granite, Stainless Steel or Ceramic, all of our sinks are guaranteed for a lifetime, so you can be confident that they are of exceptional quality and are made to last.

To complement the perfect sink, our extensive range of taps, accessories and waste management systems, gives you an all-round solution for getting the most from your kitchen sink space. Carron Phoenix manufactures products that are beautiful to look at and excellent to work with.

## GUARANTEES

As Carron Phoenix sinks are built to the highest manufacturing standards, we are proud to offer an extensive guarantee on all of our products against manufacturing defects.

Full details of our guarantees can be found on: [www.carron.com/guarantee](http://www.carron.com/guarantee)

-  Two year guarantee for accessories
-  Two year guarantee on instant boiling water taps
-  Five year guarantee for standard taps
-  Lifetime guarantee for sinks

# The story of Carron Phoenix

“ Our sink and tap collections bring together a choice of designs and materials to suit the diversity of today’s kitchen styling. It’s not just about good looks, it’s also about what works for you. From classic to contemporary, our products combine design inspiration and practicality.

Carron begins Stainless Steel Sink production

**1991**

Carron Range extends to Taps and Accessories.  
2007 includes Waste Management Systems  
2013 Introduces Instant Boiling Water Tap

## Choosing a sink

There are a number of factors to consider when choosing your kitchen sink; functionality is just as important as design, and here is a short guide to the initial decisions you will need to make before choosing the right model for you and your kitchen.

### Sink configurations and cabinet size

Whether you prefer the larger capacity of a single bowl or the versatility offered by a one and a half bowl sink, there are options to suit. The following symbols are used throughout this brochure as a guide.

**Left hand drainer:**  
The drainer is to the left of the main bowl.

**Right hand drainer:**  
The drainer is to the right of the main bowl.

**Reversible drainer:**  
The sink has tap holes front and back to allow the sink to be fitted with the drainer to the left or the right.

**Left hand 1/2 bowl:**  
For sinks without a drainer but multiple bowls. Indicates the small bowl is to the left of the main bowl.

**Right hand 1/2 bowl:**  
For sinks without a drainer but multiple bowls. Indicates the small bowl is to the right of the main bowl.

#### Inset

Inset sinks are mounted from above, and the edge of the sink sits on top of the worktop. This is the most standard type of installation and can be used with all worktop types, including laminate worktops. Inset sinks generally have a drainer board and are available in a wide range of styles and materials to suit your preference.

#### Undermount

When your worktop is made from a solid-surface material, such as granite, solid wood or engineered stone, you have the option of choosing an undermounted sink. This style is installed from beneath the work surface and allows for a clean minimalist look to the kitchen. Drainer grooves are often cut into the work surface to complete the elegant look.

It is essential to check the cabinet size of your kitchen to ensure that the sink will fit. Throughout the brochure, 'Min Cabinet' indicates the minimum cabinet size (measured left-to-right) required to allow the sink to fit.

## Choosing a tap

Throughout our brochure we offer a wide choice of sinks to suit all tastes. Each of these sinks is shown with a Henley tap. However, if you would like to upgrade your tap to your choice and specification, please refer to pages 46-55 for our full range.

**Perlator:** Mixes air into the flow of water to give a champagne-like flow.

## Materials and finishes

Kitchen sinks are available in a range of materials to suit your particular requirements and design preferences. Whichever material you choose, you can rest assured that your Carron Phoenix sink is manufactured to the highest standards.

**Stainless Steel** is available in **P** **B**

An established favourite, stainless steel sinks are practical, hard-wearing and easy to clean. Available in polished or brushed finishes.

**Granite** is available in **PW** **CO** **SG** **ON** **MB**

Manufactured using real granite particles, this material gives you the design flexibility to introduce colour into your sink area and offers exceptional performance for the life of your kitchen.

**Synthetic** is available in **AW** **GP**

Using a newly-developed proprietary coating, our synthetic sinks offer excellent heat, shock and impact resistance at a value-for-money price level.

**Ceramic** is available in **WH**

Whether your kitchen design is traditional or contemporary, the lustre of a fine-fireclay ceramic sink will add a touch of elegance.

# GRANITE

A beautifully tactile material which allows you to make a real statement in your kitchen.

The versatility of granite allows Carron Phoenix to create a range of designs which combine form and function perfectly.

Bali 100 in Polar White with Bali tap in Chrome

Each Carron Phoenix sink is supported by a **Lifetime Guarantee** against manufacturing defects

# Choice of colours

Our granite sinks come in a choice of classic and contemporary neutrals, that offer superb design scope for combining with a wide range of work surface materials. Some of our colours contain metallic particles for a beautifully subtle, but rich appearance.

No other kitchen sink material offers the durability and hard-wearing properties of Carron Phoenix Granite. We use real Granite particles – the fourth hardest material known to man as the main component of every sink.

Scratch resistant, stain resistant, temperatureresistant to 280oC and easy to clean, Carron Phoenix Granite sinks will retain their great looks for a lifetime.

When you're looking for a beautiful and hard working sink, granite is the ultimate choice. Furthermore, each Carron Phoenix sink is supported by a Lifetime Guarantee against manufacturing defects.

**YOU CAN'T SCRATCH IT**  
Knives and forks won't mark or score the surface.

**YOU CAN'T SCORCH IT**  
Even at 280°C the surface will not burn.

**YOU CAN'T STAIN IT**  
Carron Granite sinks are highly resistant to staining, marking and fading.

**EASY TO CLEAN**  
Carron Granite sinks are now 30% smoother than before and even easier to keep clean.

**SANITIZED®**  
Silver ions embedded in the Granite prevent 99% of bacteria multiplying.

## Sanitized®

Kitchens can be a critical location for the spreading of bacteria and on unprotected materials, bacteria can multiply every twenty minutes and have a negative effect on hygiene.

The integrated Sanitized® hygiene function in each Carron Phoenix Granite sink helps to keep your sink area clean and provides your sink with lasting protection.

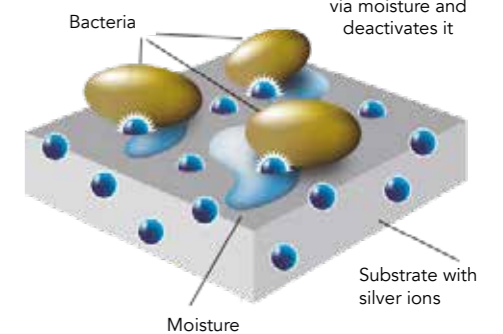

Sanitized® silver ions are embedded into our Granite offering you long-term protection. Silver is an active ingredient that prevents microbes and bacteria from multiplying and tests have proven that Carron Phoenix Granite treated with Sanitized® reduces bacteria and microbe growth by 99%.

The silver ions embedded within Carron Phoenix Granite destabilise any bacteria cell membranes, impeding their respiration and food intake as well as inhibiting cell division.

Sanitized® helps to keep the surface protected from bacteria and microbe growth after and in-between cleaning, and helps to reduce the risk of transferring bacteria and microbes from the sink surface to food or other objects. The biocidal substance locates bacteria via moisture on the surface and then deactivates it, reducing its growth and multiplication by 99%.

The silver ion locates bacteria via moisture and deactivates it

Active biocidal substance: silver phosphate glass

# BALI

Bali brings a superb combination of style and grace to any kitchen space following the 'less is more' rule of styling. Available in two models and complemented by a range of modern yet practical accessories. Bali offers both simplicity and functionality for any busy kitchen.

# STAINLESS STEEL

Stainless Steel is the professional's favourite. You can wash and buff it and over time it will develop a beautiful patina. Even with years of rigorous use, Stainless Steel maintains the good looks that have made this material such a popular choice.

All of our sinks are made from high quality Stainless Steel, ensuring their lasting quality and performance.

Practical, stylish and always of the highest quality, it's easy to find the right design for your kitchen within our extensive range of Stainless Steel sinks.

Each Carron Phoenix sink is supported by a **Lifetime Guarantee** against manufacturing defects.

## CERAMIC

WHITE

Ceramic is a respected classic.

With its lustrous glossy glaze, a Ceramic sink combines beauty with distinction.

Each Carron Phoenix sink is supported by a **Lifetime Guarantee** against manufacturing defects.

Ceramic is a hard-working, non-porous surface that is easy to clean and extremely resistant to heat and chemicals.

Our Ceramic sinks are traditionally manufactured from fine-fireclay that is fired at high temperatures and then individually finished by hand. This ensures their fine quality with a true depth of colour and an impeccable smooth surface.

# SIENNA

The Sienna is a stylish and classic Ceramic sink, suited to both traditional and more contemporary kitchens.

# TAPS

Our tap range has been specially designed to give you all the options you need to complement your Carron Phoenix sink.

Whether you are looking for a contemporary, traditional or designer style, single or double lever operation, or even a boiling water or filter tap, we have a selection of high quality and attractive taps for you to choose from.

Depending on the style and age of your house, you may require a specific style of tap, a model that is appropriate to the water pressure available in your kitchen. Specifically, many older properties will require a tap which has been designed to work best with lower water pressure or gravity fed systems. So, if you know your property has low water pressure, choose a tap suitable for low pressure systems. If you have a high pressure system you can choose any tap. See the icon below next to tap of your choice for the recommended water pressure needed.

Each Carron Phoenix mixer tap is supported by a **Five year comprehensive Guarantee** against manufacturing defects.

**Household water pressures**  
(minimum tap flow rating)

**Did you know?**  
100°C can sterilise baby bottles!

## SERAPHINA 3-in-1 Boiling Water Tap

CH 119.0285.777  
RRP **£1056**

The Seraphina 3-in-1 Boiling Water tap provides instant boiling water (100°C) at the touch of a button. Seraphina provides normal hot and cold water as well as boiling water, all from the same unit.

### TAP DIMENSIONS

Tap Height:	363mm
Base Width:	60mm
Spout Height:	259mm
Spout Reach:	216mm
Finish:	Chrome

Why waste electricity and water when boiling the kettle when you can have instant boiling water for making coffee, tea or for cooking on tap?

Seraphina incorporates a water conditioning filter, ensuring your boiling water is free from sediment, odour and any unwanted particles. Seraphina requires the activation of a safety button to operate the boiling water function, ensuring the safety of users.

In addition to the tap and the filter, the Seraphina system includes a 4.7 litre heating tank which can be situated horizontally behind a standard 150mm high cabinet plinth. This unique feature frees up the cabinet space underneath the sink for a very practical solution.

### IMPORTANT

Please be aware of your water pressure before purchase. If your water pressure is too low, the installation of a pump should be investigated. If your pressure is too high, the inclusion of a pressure reducing valve (not supplied) in the system will be necessary.

Operating pressures: 1.5 to 5 bar.

# FILTER TAPS

Desirable, stylish and highly practical, Carron Phoenix Filter taps dispense hot, cold and perfectly filtered water.

Combining the considered elegance of our most stylish designs with technologically advanced water filtration, Carron Phoenix taps are the ultimate combination of fashion and functionality.

## DANTE TRI-PURE

Dante Tri-Pure Filter offers excellent filtration performance thanks to its double filtration system of charcoal and ceramics specially impregnated with silver particles.

The filter removes unwanted chlorine, cryptosporidium and other harmful bacteria and particles, yet leaving you with the minerals that are good for you.

CH 120.0193.061  
RRP **£579**

### TAP DIMENSIONS

Tap Height: 390mm  
Base Width: 60mm  
Spout Height: 260mm  
Spout Reach: 220mm  
Finish: Chrome

## SIFT FILTER

Add a touch of class to your kitchen with the Sift filtered water tap. Available in 2 colours, this graceful swan neck tap boasts modern styling and is the only tap in the filtered range which comes in a matt black finish.

The limescale reduction filter system improves the taste of the water, whilst also reducing limescale, odour and sediment.

## Carronade Elite Waste Disposal Units

Waste disposal units are very easily installed with the current plumbing under your sink and are easy to operate.

Our premium specification products are sound insulated for a quiet operation, are septic safe and incredibly efficient. Carronade Elite waste disposal units are suitable for every day use. Food is fed into the disposer as it operates.

On/off control is operated by a separate air switch which is supplied.

## Waste Sorter Bins

Carron Phoenix waste sorter bins can be fitted easily into a kitchen cabinet and will help you to effectively segregate your waste prior to collection. With a range of configurations to choose from, each model features removable bin inserts and covers to contain odours.
